I have been working on private projects as a Freelancer since 2008 on GetAFreelancer.com. This site allowed me to meet several business owners, company managers as well as individuals. Because I cannot list below all the feedbacks (60+ at the time of writing) I have received from Projects Buyers , I decided to publish some of them, should you need a reference and peace of mind!

It's not all about money, it's about building a long lasting relationship and enhancing / developping my skills!

Complete list of feedbacks can be viewed [here](#)
